Notes:

All **quizzes** are due at 11:59 pm on the day listed. They are all open on the first day of class, and you may take them any time before the due date. The quizzes are not timed, but you must work until finished; you cannot start, save your work and restart later. At the moment they are due, they will submit even if you are in the middle of a question.

All **exams** open at 2:00 pm on the day listed and are due no later than 11:59 pm that same day. Once you start an exam, you will have 40 minutes to complete it. Exams will automatically submit 40 minutes after starting or at 11:59 pm, whichever occurs first. Exam 0 is a practice exam (i.e., not graded) that allows you to download the LockDown Browser software and verify everything works.

The **articles** are all free and available in Canvas > Reading List. If you get a message saying you need to pay for an article, you are not logged in correctly. Contact the library Help Desk for assistance < baylor.edu/helpdesk > or 254.710.4357. *Download or print all of the articles **as soon as possible**.*

All **Zoom** sessions start at **4:00 pm** on the day listed. These meetings are NOT required. They are opportunities for you to ask questions and hear about other students' concerns. I will not introduce new, critical material. If you are unable to attend a meeting, they will all be recorded and available in < Canvas : Zoom : Cloud Recordings >.
